

MVP™3000

Function

MVP™3000 was designed to fortify the security of commercial vehicles, in particular, those carrying goods and equipment. Simple to install and use, MVP™3000 fits almost any type of vehicle door, both rear and sliding.

Applications

Using a slam-locking system, MVP™3000 is applied to commercial vehicle cargo compartment doors and can be used for other applications with similar needs or structure, for example: entrance doors (single or double), electrical cabinets, etc.

Features

- Automatic Keyless locking – slam to lock
- Dust cover
- Robust stainless steel lock structure
- Emergency opening by stainless steel pull cable (for rear doors)
