

GENERAL INFORMATION

Application

Ideal for commercial and residential applications requiring the highest level of security and efficiency.

Available Platforms

Compatible with all Mul-T-Lock® patented platforms, excluding MTL™200.

Cylinder Technology

Mul-T-Lock's unique, high-precision pin tumbler system provides enhanced pick and drill resistance for high-security applications.

Common features

- Drainage holes
- Key retaining*

Key Systems

Reversible nickel silver key with plastic key-head and color inserts for quick recognition.
Optional: full metal key offering the possibility of branded key head.

Shackles and Bolts

All shackles and bolts are made of hardened Boron alloy steel with nickel-chrome finish.

*Unless otherwise specified

Sliding Bolt Padlock – SBNE10

High Efficiency. High Security

Specifications

Body: Low carbon steel with black electrophoretic plating.

Features

Non-key retaining

Standards

EN12320 – Grade 3
