NEW STANDARDS
REQUIRE NEW SOLUTIONS

As security improves, criminals inevitably find new ways to attack.

To combat this, the TS007 standards for security have now been updated to ensure that the latest generation of 3-star cylinders can protect against the most up-to-date attack methods.

TS007-1:2024 NOW INCLUDES

TESTED TO:

TS007-1:2024

Meets the latest BSI TS007-1:2024 three-star standard – demonstrates the highest level of resistance against forced entry methods such as snapping, drilling, and bumping.

BS EN1303:2015

Tested to European standard BS EN1303:2015, which tests for factors such as key durability, resistance to manipulation, and performance under attack, ensuring the product meets strict quality and safety expectations across Europe.

Sold Secure
SS312 Diamond

Tested against the toughest real-world burglary techniques. It's the ultimate reassurance that your security is built to stand firm.

Secured by
Design approved

As part of the official UK Police security initiative, our products are Secured by Design approved. This Police Preferred Specification means they're trusted, proven and designed to keep you safer.

Guaranteed

Tested & Trusted

The Break Secure® 3XP Pro is tested to the highest British Standard for reliability and attack resistance, backed by police and insurance companies.

10-Year Guarantee

Covers workmanship, materials, and function when installed and maintained correctly.

£5,000 Cashback Promise

If your first uninsured loss is due to a lock-snapping attack, we'll contribute up to £5,000.*

To keep your guarantee valid:

- Install and maintain according to instructions.
- Use Mul-T-Lock lubricant spray (P/N 98100488).
- Do not modify or repair without authorisation.

*Terms and conditions apply. Proof of purchase required.

Keeps doors secure even after an attack.
- **Keyed alike and Master keying capability**
Integrates with the full MTL™300 range.
- **Police approved**
Secured by Design.

CRAFTED FOR PROTECTION

Crafted from high-strength materials to resist prolonged manipulation and aggressive attack attempts.

Anti Drill Protection

Engineered using high strength materials and robust construction to withstand prolonged drilling.

Sacrificial End

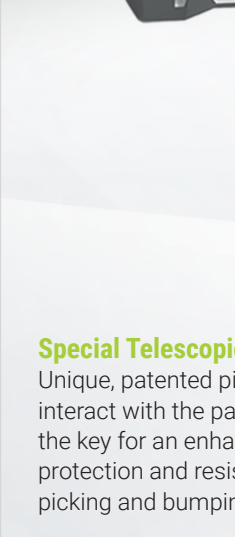

Designed to snap, providing protection against the most common forms of forced entry.

Reinforced Lock Protection

A concealed locking mechanism inside the cam keeps the door locked and secure even after snapping.

Patent-Protected Dimple Keys

For maximum key security protection.

Special Telescopic Pins

Unique, patented pins that interact with the patented cut on the key for an enhanced layer of protection and resistance to picking and bumping.

PROVEN TO WITHSTAND
1 MILLION
ACCELERATED CYCLES

ENGINEERED TO KEEP YOU ONE STEP AHEAD

The MTL™300 Break Secure® 3XP Pro is designed with reinforced protection inside and out to stop today's most common and aggressive forms of attack. Its patented sacrificial elements work in harmony with advanced locking technology to keep the door secure even if an intruder tries to snap the cylinder.

A concealed cam provides anti-snap protection, keeping the lock engaged after a snap attempt. A specially designed locking mechanism adds another layer of security, designed to break in a controlled way to protect the cylinder's core. Combined with precision machining and a hardened body, the result is **a cylinder that doesn't just resist attacks – it's built to outthink them.**

SECURITY YOU CAN STAKE YOUR REPUTATION ON

With the MTL™300 Break Secure 3XP Pro®, every installation is a statement of trust and expertise. Built to the highest standards, tested to the toughest benchmarks, and proven in the real world – this is the cylinder that protects your customers and your good name.

**FIT IT. TRUST IT.
RECOMMEND IT.**
