Antimicrobial Hardware

Antimicrobial handle

for an architecture that cares about people

NEW

The microorganisms present around us represent a threat in hospitals, children's and geriatric environments, etc.

MTL - ASSA ABLOY has developed a range of antimicrobial handles and panic bars specifically designed for these environments. They have a bactericidal power of 95% against organisms such as *Staphylococcus aureus*, *Escherichia coli*, *Pseudomonas aeruginosa*, *Enterococcus hirae* and *Candida albicans*, the most common group of bacteria in hospitals and geriatric homes.

Laboratories and agencies that certify the antimicrobial properties of our handles:

- Tecnia Research & Innovation, San Sebastian
- Universidad de Pavia, Italia
- Law laboratories Ltd., Birmingham
- Instituto Sabater, Barcelona
- Laboratorio Chelab, Italia
- Universidad de Navarra, Pamplona

Complies with: ISO 22196:2011 / JIS Z 2801:2000

	TSRPLE100400AM

KEYHOLES

Rounded	MB0RBOMAM
Square	MKUB0RBOMAM

How does it work?

The silver ion and zeolite coating on MTL - ASSA ABLOY's antimicrobial handles releases the silver ions gradually, acting on the bactericidal strains by dismantling their metabolism and inhibiting their cell division.

THUMB TURN

Rounded	MB0REMEAM
Square	MKUB0REMEAM

SMARTAir® i-gate Padlock

Toughness and technology
work together

SMARTAir® i-gate, the new
electronic IP68 padlock

SMARTAir® i-gate Padlock

Electronic access control - offline
or wireless online - to almost
any non-standard opening

Real-time control and monitoring

Managed by any of the SMARTAir systems, the new SMARTAir i-gate padlock can be integrated, controlled and monitored, in real time, from the TS1000 software.

Compatible with all forms of intelligence

The SMARTAir i-gate padlock offers a new way to open up — using a smartphone and the Openow mobile app as well as RFID credentials. RFID reader with LED (blue/red) shows different warning signals.

IP rating of 68: dust and liquid resistance

The SMARTAir i-gate padlock is a device improved in every way. Its stainless steel shackle makes it more resistant to attack. The external black cover is completely watertight and protects against any weather.

Easy, drilling-free installation and maintenance

Quickly swap any existing padlock with the easy to install, battery powered (60.000 cycles) i-gate padlock

SMARTair® Knob Cylinder

One small change that changes everything

Style, intelligence and robustness come together in the new SMARTair® knob cylinder.

Suitable for any door, it quickly upgrades your existing mechanical cylinder to an access controlled cylinder. Without any drilling.

Modern, elegant design with a choice of finishes to fit any building style.

SMARTair® i-max Escutcheon

Style, intelligence and robustness

Robust, innovative and elegant: the new SMARTair® electronic escutcheon is a completely updated and upgraded access control device. With a more sophisticated design, multiple finishes and an extra-resistant locking mechanism, i-max is perfect for environments where intelligence, design and functionality must stand out.

Designed to secure intelligent environments, with high traffic of people and a high number of accesses and events

Modern, elegant design with a choice of finishes to fit any building style. It also includes antibacterial coating.

eCLIQ - Padlocks

eCLIQ® | durability + connectivity

The ultimate combination of robust security and accessibility

Access control padlocks – new from Mul-T-Lock

Access Control at your fingertips –
Now for the remotest of locations with
NE-Series padlocks and Diamond Hasplock.

Designed for extreme conditions our range of eCLIQ® padlocks are an extension to the wider eCLIQ® portfolio and are ideal for applications that require durability and protection against elements.

Embedded with micro-technology that collects information about who, when and where the padlock has been accessed to provide you with complete audit trail activity, in even the most remote places.

The benefits to businesses

eCLIQ® is a system of programmable keys and compact, secure locking cylinders, offering you:

- Minimize the risks associated with lost keys
- Flexibility to manage constantly changing access requirements
- Enhanced security with CLIQ® chip generation using AES encryption
- Durability due to robust hardware
- Easy installation – no wiring required
- Clear audit trails

Procedure for return of faulty/incorrect goods

- No returns will be accepted back into the business without first obtaining a customer concern number. The Customer Service team can also directly enter a concern but they must be provided with either an invoice, dispatch or acknowledgment number. Once agreed the product(s) will be collected via carrier collection service. All returns should be enclosed with the "Returns Form" provided by the Customer Service team.
- If appropriate, chargeable replacements will be organised by the Mul-T-Lock Customer Service team without a carriage cost. Payment for replacements should be made as per our normal Terms & Conditions of sale. Carriage is not credited, however not charged on replacement orders.
- For each item returned our Quality Concerns team will conduct a full investigation of all the problems specified within the original concern. Where possible we will endeavour to repair the faulty items. Once repaired, these will be returned. Please be aware there may be a charge incurred for this process. When the investigation has been completed and we can find no fault with the product, these will be returned at your own expense.
- For product which is damaged or for which it is uneconomical to repair, a new replacement item can be requested which will be charged at our list price less your discount.
- If any fault is found with these returned products we will endeavour to issue a credit note against your account for the relevant value within 20 working days.
- Where the product is being returned as a 'faulty product' the full fault must be stated i.e. 'What is wrong with what' as simply putting 'faulty' will not be accepted as a reason for return.
- The company does not accept returned items unless a product is found to be faulty. The company may use its discretion on a case by case basis to allow the return of stock, purchased to stock (PTS) or make to order (MTO) items for re-stocking. Any purchased to stock (PTS) item returned will be subject to a handling charge of 25% of the original invoice value. Any made to order (MTO) item returned will be subject to a handling charge of 35% of the original invoice value. All purchase to order (PTO) items are non-returnable and non-refundable.
- All eCLIQ, CLIQ, SMARTair and CODE-IT products are subject to **2 years manufacturers' warranty** and Traka 21 is subject to **12 months manufacturers' warranty**.

CLIQ lubrication instructions

CLIQ cylinders and padlocks are delivered from Mul-T-Lock slightly lubricated with oil (PN 98100488) which should last for the first 3 months of operation or for 3000 operations (the one that comes first).

1. The end user must lubricate the CLIQ cylinder / padlock with the same oil lubricant which is in use with the Mul-T-Lock mechanical cylinders in interval period of 6 months or every 5000 operations (the one that comes first).
2. A lubrication label, which describes the lubrication type, will be attached to every CLIQ system that is shipped from Mul-T-Lock technologies as can be seen in the following picture:
3. To lubricate, introduce the plastic straw on the key way and gently press the valve on the lubricant bottle. Remove the plastic straw, insert the key and open/close the cylinder a couple of times in each direction.
4. The following table will help the end user to estimate the time intervals for lubrication:

Estimation of operation per month	Lubrication plan
250	Every 6 months
750	Every 6 months
1250	Every 4 months
5000	Every month

Activating the cylinder's motor

The motor which is located inside the CLIQ cylinder must be activated once every 4 months.

To activate the motor, insert an authorized key to the cylinder. Wait for the green indication and turn the key. Repeat 3 times.

MUL-T-LOCK® Terms & Conditions

1. General

- 1.1 This range of Products are distributed by Mul-T-Lock (UK) (hereinafter called "the Company").
- 1.2 There shall be no binding contract between The Company and the person, firm or company placing the order (hereinafter called "the Buyer") until the Buyer's order has been accepted in writing by the Company.
- 1.3 These conditions shall apply in the case of all contracts entered into by the Company to the exclusion of all terms and conditions, including any standard terms of the Buyer, except as agreed in writing by the Company. Acceptance of the order by the Company shall be determined to indicate the Buyer's acceptance to agreement to abide by these conditions.
- 1.4 Accepted orders may only be amended or cancelled with the Company's express prior approval in writing.
- 1.5 Without prejudice to the provisions of Condition 1.3 should any work be suspended or halted to be paid for work completed or costs incurred.

2. Price

- 2.1 Unless otherwise agreed in writing the price of the goods will be that ruling at the date of acceptance of the order. The company reserves the right to alter their prices, from any estimate or quotation previously given to the Buyer if the quotation period has expired.
- 2.2 All prices quoted will exclude Value Added Tax, which will be added to the price at the current rate ruling on the date of delivery of the goods.

3. Payment

Payment of all invoices is strictly 25th of the Month following the month of invoice for customers with an approved credit account. Otherwise payment is required with the Buyer's order. If any payment is overdue, the Company may (without prejudice to any of its other rights or remedies) charge interest on the overdue amount at the rate of 2% per month and proportionately for any lesser periods as well before, as after judgement, until the overdue amount is paid.

4. Delivery and Risk

- 4.1 Delivery of the goods to be supplied to the stipulated place of delivery shall constitute delivery to the Buyer. All risks in the goods shall pass to the Buyer on such delivery. This also applies to deliveries made to a third party on behalf of the Buyer.
- 4.2 Whilst every effort shall be made to deliver goods on or before a specified date, such a date is the Company's best estimate when specified, but is not a contractual commitment.
- 4.3 Discrepancies and damage apparent at the time of delivery must be noted on the carrier's receipt note and notified in writing within 7 days of the delivery. Other discrepancies cannot be accepted by the Company after this time.
- 4.4 Should delivery of the goods be refused or denied for any reason not agreeable to the Company, the Buyer shall pay the full price of the goods within 30 days of the invoice date.
- 4.5 Each delivery or part delivery of an order shall be considered a separate contract and shall not affect or vitiate the contract as to other deliveries.
- 4.6 Two collections will be arranged, however if the second one fails, the customer is required to return the package at their cost.
- 4.7 We do not credit carriage, however replacement order is sent carriage free.
- 4.8 For all price queries, we allow 7 days for all confirmations and invoices to be checked immediately if credit is required.
- 4.9 For all orders, we allow 14 days for stock to be checked to ensure they are the correct items.

5. Transfer of Property

- 5.1 Property of the goods will remain with the Company until payment is received in full.
- 5.2 Failure by the Buyer to make all payments when due shall give the Company or their appointed agents the right, without prejudice, to any other remedy of the Company,

to repossess the goods without prior notice to enter any premises for the purpose of such repossession.

- 5.3 Nothing in this condition shall give the Buyer any right to return any goods. Under no circumstances are our goods sold to the Buyer under a sale/use or return.

6. Limitation of Liability

- 6.1 The Company does not manufacture any goods but orders them from one or more suppliers to meet the Buyer's requirements therefore as stated by the Buyer to the Company. To the extent legally possible the Company shall assign to the Buyer, take all reasonable steps to enforce such warranties.
- 6.2 The obligations on the part of the Company set out in paragraph 6.1 of this Condition are accepted by the Company in lieu of all warranties and conditions, expressed or implied by common law, statute, trade usage, custom or otherwise and such warranties and conditions are hereby expressly excluded provided that nothing in this condition or in the rest of the Contract shall be interpreted as excluding or restricting any legal liability of the Company for death or personal injury resulting from the negligence of the Company and/or its employees, or as excluding or restricting any of the Company's legal obligations arising under Section 12 of the Sale of Goods Act 1979.
- 6.3 Except as provided in the proviso to paragraph 6.2 of this condition the Company shall not be liable for any manner whatsoever (whether in the law of contract tort or otherwise howsoever) for any consequential loss (which shall include, without limitation, loss of profits, reputation, goodwill, business expenses rendered futile by the breach, expenses caused by the breach, any claim made against the Buyer by any other party and any other economic or indirect loss) or any other loss damage or injury in relation to or arising out of the goods or attributable directly or indirectly to the acts, defaults or negligence of the Company or any of the Company employees or agents.

7. Events beyond the Company's Control

The Company shall not be liable under the contract wherever and to the extent to which the fulfillment of its obligations is prevented, frustrated, impeded and/or fire, explosion, flood, storm, act of God, governmental acts, orders or regulation, hostilities, civil disturbances, strikes, labour difficulties (whether of the Company or of third parties) machinery breakdown, inability to obtain necessary materials from usual sources of supply, shortage of transport facilities or delays in transit or any other circumstances whatsoever and howsoever arising (whether or not of a class or kind before mentioned) beyond its reasonable control. The Company undertakes to endeavour to overcome any such difficulties but reserves the right to cancel, suspend or vary its obligations under the Contract.

8. Buyer's Warranty

- 8.1 By placing the order the Buyer is deemed to have warranted to the Company that it has stated in writing therein all its requirements with regard to the goods and that it has stipulated therein or in a document expressly referred to therein all information relevant to the manufacture or supply of the goods.
- 8.2 The Buyer warrants to the Company that it has not placed the order as agent or any third party.

9. Copyright and other intellectual property rights

The Buyer shall indemnify the Company against all damages, claims, losses, costs and expenses arising out of any infringement or alleged infringement of any copyright, patent, trademark, service mark, registered design, unregistered design, moral right or other intellectual property right with the Company incurs arising out of its compliance with the Buyer's requirements. The Company shall not be bound to defend any proceedings brought against it by any third party in respect of any such actual or alleged infringement, but if the Company shall decide to do so, the Buyer shall provide the Company with all such information as the Company may reasonably

require.

10. Assignment

The Buyer shall not assign or otherwise transfer all or any of its rights, interest or obligations in or under the Contract with the Company's prior consent.

11. Buyer's breach and financial situation

If the Buyer shall be in breach of any of its obligations hereunder or under any other contract with the Company of if at any time the Buyer's financial position does not in the Company's unfettered judgement justify continuance of the Contract on the terms of payment agreed, the Company may, without prejudice to any of its rights and remedies and without liability whatsoever to the Buyer, cancel any deliveries until such time as the Buyer shall provide security satisfactory to the Company for the performance of all obligations of the Buyer to the Company.

12. Handling Charges

The company does not accept returned items unless a product is found to be faulty. The company may use its discretion on a case by case basis to allow the return of stock (PTS) or make to order (MTO) items for re-stocking. Any stock (PTS) item returned will be subject to a handling charge of 25% of the original invoice value. Any made to order (MTO) item returned will be subject to a handling charge of 35% of the original invoice value. All purchase to order (PTO) items are non returnable and non refundable.

13. Governing Law

The information, interpretation and performance of this Contract shall be governed by English Law and the Company and the Buyer submit to the non-exclusive jurisdiction of the English Courts in relation to any disputes in connection therein.

14. Headings

The headings of these Conditions do not form part of the Conditions and shall not affect the interpretation thereof.
