No card no key policy

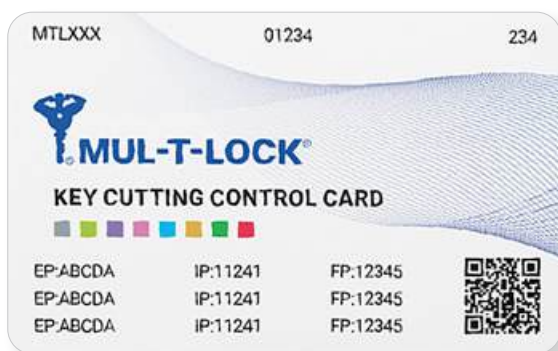

All Mul-T-Lock® non-master keyed products will be issued with an official key holder card when purchased, the Mul-T-Lock® dealer is only authorised to cut keys if this card is presented to them.

This policy does not apply to the Garrison range (which has never been patented) although it is preferable to have the correct code from this card in order to cut keys.

If the card or a key has been misplaced or lost then the security of the system is considered 'compromised' and it is in the best interests of the end user to either, replace the system or return keys and cylinders to the Mul-T-Lock® dealer in order for them to be re-pinned to a new key holder card. This is a function performed by the Mul-T-Lock® dealer and is therefore subject to their own pricing etc.

It is not possible for Mul-T-Lock (UK) to produce duplicate key holder cards, all key holder cards are produced and issued at random in order to further enhance the security of the product

Under exceptional circumstances a solicitor's letter on headed paper confirming bona fides will be accepted by Mul-T-Lock (UK) as authorisation to cut keys without the presence of a key holder card. Mul-T-Lock (UK) reserves the right to refusal pending authentication of these details.

Procedure for return of faulty/incorrect goods

- No returns will be accepted back into the business without first obtaining a customer concern number. The Customer Service team can also directly enter a concern but they must be provided with either an invoice, dispatch or acknowledgment number. Once agreed the product(s) will be collected via carrier collection service. All returns should be enclosed with the "Returns Form" provided by the Customer Service team.
- If appropriate, chargeable replacements will be organised by the Mul-T-Lock Customer Service team without a carriage cost. Payment for replacements should be made as per our normal Terms & Conditions of sale. Carriage is not credited, however not charged on replacement orders.
- For each item returned our Quality Concerns team will conduct a full investigation of all the problems specified within the original concern. Where possible we will endeavour to repair the faulty items. Once repaired, these will be returned. Please be aware there may be a charge incurred for this process. When the investigation has been completed and we can find no fault with the product, these will be returned at your own expense.
- For product which is damaged or for which it is uneconomical to repair, a new replacement item can be requested which will be charged at our list price less your discount.
- If any fault is found with these returned products we will endeavour to issue a credit note against your account for the relevant value within 20 working days.
- Where the product is being returned as a 'faulty product' the full fault must be stated i.e. 'What is wrong with what' as simply putting 'faulty' will not be accepted as a reason for return.
- The company does not accept returned items unless a product is found to be faulty. The company may use its discretion on a case by case basis to allow the return of stock, purchased to stock (PTS) or make to order (MTO) items for re-stocking. Any purchased to stock (PTS) item returned will be subject to a handling charge of 25% of the original invoice value. Any made to order (MTO) item returned will be subject to a handling charge of 35% of the original invoice value. All purchase to order (PTO) items are non-returnable and non-refundable.

MUL-T-LOCK® Terms & Conditions

1. General

- 1.1 This range of Products are distributed by Mul-T-Lock (UK) (hereinafter called "the Company").
- 1.2 There shall be no binding contract between The Company and the person, firm or company placing the order (hereinafter called "the Buyer") until the Buyer's order has been accepted in writing by the Company.
- 1.3 These conditions shall apply in the case of all contracts entered into by the Company to the exclusion of all terms and conditions, including any standard terms of the Buyer, except as agreed in writing by the Company. Acceptance of the order by the Company shall be determined to indicate the Buyer's acceptance to agreement to abide by these conditions.
- 1.4 Accepted orders may only be amended or cancelled with the Company's express prior approval in writing.
- 1.5 Without prejudice to the provisions of Condition 1.3 should any work be suspended or halted to be paid for work completed or costs incurred.

2. Price

- 2.1 Unless otherwise agreed in writing the price of the goods will be that ruling at the date of acceptance of the order. The company reserves the right to alter their prices, from any estimate or quotation previously given to the Buyer if the quotation period has expired.
- 2.2 All prices quoted will exclude Value Added Tax, which will be added to the price at the current rate ruling on the date of delivery of the goods.

3. Payment

Payment of all invoices is strictly 25th of the Month following the month of invoice for customers with an approved credit account. Otherwise payment is required with the Buyer's order. If any payment is overdue, the Company may (without prejudice to any of its other rights or remedies) charge interest on the overdue amount at the rate of 2% per month and proportionately for any lesser periods as well before, as after judgement, until the overdue amount is paid.

4. Delivery and Risk

- 4.1 Delivery of the goods to be supplied to the stipulated place of delivery shall constitute delivery to the Buyer. All risks in the goods shall pass to the Buyer on such delivery. This also applies to deliveries made to a third party on behalf of the Buyer.
- 4.2 Whilst every effort shall be made to deliver goods on or before a specified date, such a date is the Company's best estimate when specified, but is not a contractual commitment.
- 4.3 Discrepancies and damage apparent at the time of delivery must be noted on the carrier's receipt note and notified in writing within 7 days of the delivery. Other discrepancies cannot be accepted by the Company after this time.
- 4.4 Should delivery of the goods be refused or denied for any reason not agreeable to the Company, the Buyer shall pay the full price of the goods within 30 days of the invoice date.
- 4.5 Each delivery or part delivery of an order shall be considered a separate contract and shall not affect or vitiate the contract as to other deliveries.
- 4.6 Two collections will be arranged, however if the second one fails, the customer is required to return the package at their cost.
- 4.7 We do not credit carriage, however replacement order is sent carriage free.
- 4.8 For all price queries, we allow 7 days for all confirmations and invoices to be checked immediately if credit is required.
- 4.9 For all orders, we allow 14 days for stock to be checked to ensure they are the correct items.

5. Transfer of Property

- 5.1 Property of the goods will remain with the Company until payment is received in full.
- 5.2 Failure by the Buyer to make all payments when due shall give the Company or their appointed agents the right, without prejudice, to any other remedy of the Company,

to repossess the goods without prior notice to enter any premises for the purpose of such repossession.

- 5.3 Nothing in this condition shall give the Buyer any right to return any goods. Under no circumstances are our goods sold to the Buyer under a sale/use or return.

6. Limitation of Liability

- 6.1 The Company does not manufacture any goods but orders them from one or more suppliers to meet the Buyer's requirements therefore as stated by the Buyer to the Company. To the extent legally possible the Company shall assign to the Buyer, take all reasonable steps to enforce such warranties.
- 6.2 The obligations on the part of the Company set out in paragraph 6.1 of this Condition are accepted by the Company in lieu of all warranties and conditions, expressed or implied by common law, statute, trade usage, custom or otherwise and such warranties and conditions are hereby expressly excluded provided that nothing in this condition or in the rest of the Contract shall be interpreted as excluding or restricting any legal liability of the Company for death or personal injury resulting from the negligence of the Company and/or its employees, or as excluding or restricting any of the Company's legal obligations arising under Section 12 of the Sale of Goods Act 1979.
- 6.3 Except as provided in the proviso to paragraph 6.2 of this condition the Company shall not be liable for any manner whatsoever (whether in the law of contract tort or otherwise howsoever) for any consequential loss (which shall include, without limitation, loss of profits, reputation, goodwill, business expenses rendered futile by the breach, expenses caused by the breach, any claim made against the Buyer by any other party and any other economic or indirect loss) or any other loss damage or injury in relation to or arising out of the goods or attributable directly or indirectly to the acts, defaults or negligence of the Company or any of the Company employees or agents.

7. Events beyond the Company's Control

The Company shall not be liable under the contract wherever and to the extent to which the fulfillment of its obligations is prevented, frustrated, impeded and/or fire, explosion, flood, storm, act of God, governmental acts, orders or regulation, hostilities, civil disturbances, strikes, labour difficulties (whether of the Company or of third parties) machinery breakdown, inability to obtain necessary materials from usual sources of supply, shortage of transport facilities or delays in transit or any other circumstances whatsoever and howsoever arising (whether or not of a class or kind before mentioned) beyond its reasonable control. The Company undertakes to endeavour to overcome any such difficulties but reserves the right to cancel, suspend or vary its obligations under the Contract.

8. Buyer's Warranty

- 8.1 By placing the order the Buyer is deemed to have warranted to the Company that it has stated in writing therein all its requirements with regard to the goods and that it has stipulated therein or in a document expressly referred to therein all information relevant to the manufacture or supply of the goods.
- 8.2 The Buyer warrants to the Company that it has not placed the order as agent or any third party.

9. Copyright and other intellectual property rights

The Buyer shall indemnify the Company against all damages, claims, losses, costs and expenses arising out of any infringement or alleged infringement of any copyright, patent, trademark, service mark, registered design, unregistered design, moral right or other intellectual property right with the Company incurs arising out of its compliance with the Buyer's requirements. The Company shall not be bound to defend any proceedings brought against it by any third party in respect of any such actual or alleged infringement, but if the Company shall decide to do so, the Buyer shall provide the Company with all such information as the Company may reasonably

require.

10. Assignment

The Buyer shall not assign or otherwise transfer all or any of its rights, interest or obligations in or under the Contract with the Company's prior consent.

11. Buyer's breach and financial situation

If the Buyer shall be in breach of any of its obligations hereunder or under any other contract with the Company of if at any time the Buyer's financial position does not in the Company's unfettered judgement justify continuance of the Contract on the terms of payment agreed, the Company may, without prejudice to any of its rights and remedies and without liability whatsoever to the Buyer, cancel any deliveries until such time as the Buyer shall provide security satisfactory to the Company for the performance of all obligations of the Buyer to the Company.

12. Handling Charges

The company does not accept returned items unless a product is found to be faulty. The company may use its discretion on a case by case basis to allow the return of stock (PTS) or make to order (MTO) items for re-stocking. Any stock (PTS) item returned will be subject to a handling charge of 25% of the original invoice value. Any made to order (MTO) item returned will be subject to a handling charge of 35% of the original invoice value. All purchase to order (PTO) items are non returnable and non refundable.

13. Governing Law

The information, interpretation and performance of this Contract shall be governed by English Law and the Company and the Buyer submit to the non-exclusive jurisdiction of the English Courts in relation to any disputes in connection therein.

14. Headings

The headings of these Conditions do not form part of the Conditions and shall not affect the interpretation thereof.

15. Lock Servicing

For the longevity of your cylinder, please ensure you lubricate your cylinder regularly using Mul-T-Lock lubricant (98100488). We recommend Mechanical cylinders/padlocks to be lubricated every 6 months or every 5000 operations (whichever comes first).

Prices are in £ Sterling. Minimum carriage paid order £300 nett.

Orders below £300 nett will be charged carriage at cost (minimum charge of £12.50)

Sales office: 01902 364200

VAT to be added to all stated prices, terms 25 days from end of month. Subject to our standard conditions of sale.

All Nemef prices shown are subject to a surcharge, contact us for details.

The company acknowledge all brand names, copyrights and trademarks of manufacturers which occur in this publication.

Future proof your skills & business

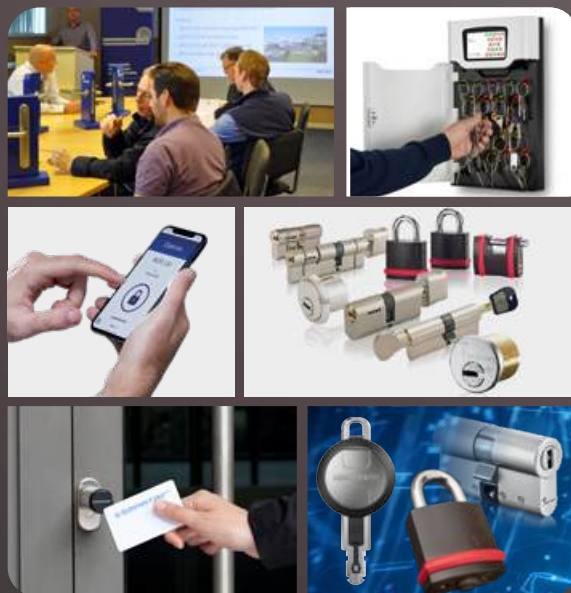

Our training courses are designed to equip you and your team with the most up-to-date product and industry knowledge. Plus extensive 'hands on' experience of the full Mul-T-Lock® product portfolio.

- Industry standards for Elmech and Mechanical
- Applications and environments where our products bring added value and convenience
- How our products differ from the competition
- How to secure recurring revenue

- Sales tools and demonstration kits with exclusive prices for attendees
- How to maximise the potential of product demonstrations
- The ease of pinning and assembly
- Meet the team and see how your products are made

Courses run throughout the year at our factory.

Contact us for details if you wish to design your own bespoke training for delivery at your premises.

ASSA ABLOY

**Durable, customisable,
and built to last.**

Mul-T-Lock is proud to introduce its latest innovation in security – all-metal keys, designed for enhanced durability and precision. Offering superior strength and reliability, these keys are ideal for high-demand environments and provide a premium solution for your locking needs.

Key Features and Benefits

- **Robust Durability:** Built with an all-metal construction, these keys withstand wear and tear, ensuring long-lasting performance.
- **Enhanced Security:** Precision-engineered for Mul-T-Lock's advanced cylinders, delivering unbeatable locking integrity and reliability.
- **Customisation Options:** Laser-engraved branding or contact details for professional key management and a personalised touch.
- **Faster Production:** Streamlined manufacturing processes reduce lead times without compromising quality.

Whether for residential, commercial, or industrial use, Mul-T-Lock metal keys deliver unmatched strength and a sleek design that sets the standard for modern security solutions.

All-Metal Keys Now Available

**LOCKSMITH
RECOMMENDED BRAND**

NEW

**Its all about your
client's safety...**

We develop and design keying systems to meet the evolving needs of people's businesses, homes and families while prioritizing high-security and technological innovation, for secure and reliable locking solutions.

All of our keying platforms meet rigorous standards to offer enhanced resistance to picking, drilling, bumping, and other forms of lock manipulation, so your property remains more secure.

In seeking new ways to make our customers feel safer, we've developed antibacterial keys for all of our various cylinders, locks, and padlocks. Antibacterial properties help prevent the growth of unwanted bacteria on the key surface, making it more hygienic for use.

Our new antibacterial plastic heads include an antibacterial agent that suppresses the growth of bacteria on the surface of the key.

Both our new antibacterial plastic head keys, as well as our metal composite keys, have been tested according to ISO 22196 standard and no viable bacteria was found on the key surface.

To make it easy to recognize, all of our antibacterial plastic key heads are dark green. If you prefer our metal keys just look for the "AntiBacterial" logo on the key head.

So for a safer and cleaner option ask for the green key!

AntiBacterial

KEY BLANKS

**Available
across all
cylinder
platforms**
